

# See Where You Are

Amel Larrieux

It's zippin by  
Like speed of light  
Or draggin painfully slow  
It's not enough  
Or just too much  
Either way it's gonna go

What you wanted is what you have  
Or isn't it  
What you are is out of your hands  
Or isn't it

Lay down your pencil  
Computer off  
Say not a word  
Get out of your car  
Step away from your desk  
Don't look at the clock  
Stand there in silence

And see where you are  
And see where you are  
And see where you are  
And do you wanna be where you are

It's everything  
A vivid dream  
Or not worth talking about  
The big idea  
Until it's here  
And then they're taking the house

What you wanted is what you have  
Or isn't it  
What you are is out of your hands  
Or isn't it

Lay down your pencil  
Computer off  
Say not a word  
Get out of your car  
Step away from your desk  
Don't look at the clock  
Stand there in silence

And see where you are  
And see where you are  
(Do you like it?)  
And see where you are  
And do you wanna be where you are?

Ah yes  
Feeling the implications  
Of somebody else's  
Expectations  
You could elope if you wanted to

Lay down your pencil  
Computer off  
Say not a word  
Get out of your car  
Step away from your desk  
Don't look at the clock  
Stand there in silence

[x2]

And see where you are  
And see where you are  
(Do you like it?)  
And see where you are  
And do you wanna be where you are?

And see where you are  
And see where you are  
(Do you like it?)
