

brown zip up

Amelia Moore

One thing about me is I'm gonna flirt
One thing about you is you make it hard but I make it work
Tell you to text me when you home
Act like you don't even miss me when I know you do
So why did you hug me when you could've kissed me?

We were lookin' at the view, that was your moment
I was so nervous but I was tryna play it cool
'Cause I didn't know what to do, oh-woah

Stood there in my t-shirt, you in your brown zip-up
I am tequila, you be that brown liquor
And I wanna mix it and mix it up
Until we both end up on the floor
What if we did what we could've done?
I guess we'll never know

Ooh, we'll never know
But I wanna know
Don't act like you don't

One thing about us is this is a lot
It's been like four damn years
Now you think I'm cute and I think you're hot
So we gon' leave this party early
To finish what we started in the photo booth
So let's keep it goin' at my apartment

Now we wasted on my roof, this is your moment
Feels like a movie, how am I wakin' up next to you?
Butt ass naked in your room

Now I need a t-shirt, give me that brown zip-up
Too much tequila, too much of that brown liquor
And we don't remember 'cause we were drunk
All of our clothes on the floor
I know we must've did somethin' more
Guess we'll never know

Ooh, we'll never, never know, babe
Ooh, woah, never know
No, woah, oh
Ooh, yeah, ooh-ooh
Ooh-ooh-ooh-ooh-ooh

Ayy, one more thing about us and these butterflies
Is I'm gonna feel 'em inside of my tummy
When you lookin' at me with those eyes
It's like I'm happier than ever every time that I'm with you
And it's corny as hell
I probably shouldn't, but I'm gonna kiss you
