

## Back to Love

Amely

I feel the weight of silence crashing down

It brings me to my knees

Remember back to when we had it all

When you stood next to me

But with every kiss it tastes like goodbye

And I don't wanna feel like this will be the last time

I stopped breathing

My heart's not beating

Begging you on my knees

And I'll say never

Just stay forever

Will you come back to me

Just come back to me

I stole the moment

But the moment stole the breath right out of me

(Oh oh oh oh)

Regretting every second left in fear

Your ghost is haunting me

But with every kiss it tastes like goodbye

And I don't wanna break here tonight

I stopped breathing

My heart's not beating

Begging you on my knees

And I'll say never

Just stay forever

Will you come back to me

Just come back to me

I can't hold myself under time

Can't heal everything

Try and somehow discover

Find yourself again

I stopped breathing

My heart's not beating

Begging you on my knees

And I'll say never

Just stay forever

Will you come back to me

Just come back to me

I stopped breathing

My heart's not beating

Begging you on my knees

And I'll say never

Just stay forever

Will you come back to me

Just come back to me
