

# Christmas Time Again

Amely

Its Christmas time again  
Without you here  
Where have you been  
Another lonely year  
I cant forget  
Remember when  
Its Christmas time again

I hear your voice  
I feel your heart  
And though your miles away  
It seems as though we never had to part  
If I pretend you never left  
Its Christmas time again

Ill put the tree up on my own  
Let it glow  
Hang these ornaments alone  
Even though  
Your not here with me  
I feel you so  
Don't forget  
Its Christmas time again  
Its Christmas time again

Under the tree  
Wrapped presents w/ your name  
On the marquee  
A thousand miles away  
These Christmas lights  
Will help you find your way  
Cold winter nights  
Well Its Christmas time again  
Christmas time again

Ill put the tree up on my own  
Let it glow  
Hang these ornaments alone  
Even though  
Your not here with me  
I feel you so  
Don't forget  
Its Christmas time again  
Its Christmas time again

I hear you sing again on the tv and video its Christmas time alone while you  
r out there on your own but itll be alright cuz I love you so, I love you so  
(--guessing to those)

Ill put the tree up on my own  
Let it glow  
Hang these ornaments alone  
Even though  
Your not here with me  
I cant let go  
Don't forget  
Its Christmas time again

Its Christmas time again
