

# Time

## Amen Dunes

Shame, wish that I could stay  
I could hold your head one last time  
Same, summer sun  
Suffering suffering, still the same  
Time, so much time  
Some other time, so much pain  
Spain, in Southern light  
Close to crying, solo grey

Man, oh man, when Jesus died  
No one cried, all the same  
Lay awake in summer light  
No one served, serves to say  
Turn away, do not lie  
Open doors, to burn my light  
You'll do something good

Southern Spain, give it that southern pain, southern pain  
Yeah that Southern pain, hold my soul, so early

Lovely lady dresses in grey

So much pain, induction pain, yeah  
So much pain, so much pain, yeah

Roman silver sky  
Takes their time, to push it away  
I'll ride the river hoping to tell you  
Some day, so they say

So loud, say it I'm proud  
Say it loud, say it out loud, pain  
Say it out loud, say it I'm proud  
Say it out loud, pain

It's over, German foot soldier  
Torch the night, with soldier's pain  
Something, something in my heart  
Took its hold, throughout my life  
Something in me

Silver cloud  
So empty now  
Sitting on a cloud  
Pain
