My halo, is a black light
My halo, is a black light
My halo, is a black light
My halo, is a black light

Let my hug, crush your ribcage
My soft kiss, gives you bleeding lips
I gently stroke, (your hair) and I scalp you
I'll kiss you with a forehammer

My halo, is a black light
My halo, is a black light
My halo, is a black light
My halo, is a black light

My halo, is a black light
Let my hug, crush your ribcage
My soft kiss, gives you bleeding lips
I gently stroke, (your hair) and I scalp you
