

## Salve Mater

Amenra

Through the wound comes salve  
Salve  
Through the wound  
Comes the salve  
Through the wound  
Comes salve  
Fled what was  
Come what does

The second life  
The strife  
Receive  
And be reborn

Of all  
Of all

I am the host the passageway  
Drive your body into mine  
Merge and move forth as one

The driving force of the sheath  
The source  
The cold blade in me  
And lifesblood  
It sprung from me

Life upon life  
Plague upon plague  
Life upon life  
Plague upon plague

The tower  
Concrete born flower  
Angel of light  
Your body hung  
Praise is sung  
Onto your name

Of all  
Of all  
Of all

Flesh of the world  
Lesion and wound  
Made and shown  
Flesh of the world  
Lesion and wound  
Let them know  
Flesh of the world  
Lesion and wound  
A blade to hone  
Flesh of the world  
Lesion and wound  
Made and shown

The second coming of man

Consumed by all  
The rite  
Separate your world from mine

Of all  
Of all  
Of one and all  
Man and beast  
The reach  
Of my call
