

Who Loves You

America

Love is falling on me
Time will tell how much you mean to me
Can't stop looking in your eyes
Count the stars hiding up in the sky

Look who loves you when you're feelin' down
Just like you're the only one around
Look who loves you when you're feelin' down

Somewhere peace will be found
Past the clouds or somewhere near the ground
Who knows, who really cares?
Take your time as we both climb the stairs

Who cares if I live or die
Somebody's always asking why
Who loves you when you're feelin' down?

Who's gonna trust you now, boy?
Who's gonna trust you now, boy?
Who's gonna trust you now, boy?
Who's gonna trust you now, boy?

Look who loves you when you're feelin' down
Just like you're the only one around
Who loves you when you're feelin' down
Just like you're the only one around

Look who loves you when you're feelin' down
Just like you're only one around
Look who loves you when you're feelin' down
Just like you're only one around
