

World Of Light

America

Rainbows over the world of light
People rushing to the holy site
Sidewalks sizzle in a summer night
Of love

Not a soul in sight
In my dream tonight
It's gonna be alright
World of light

From the southern skies
To the children's eyes
Through an endless night
This world of light

Rainbows over the world of light
People rushing to the holy site
Sidewalks sizzle in a summer night
Of love

Come on baby hold me tight
Everything's gonna be alright
I can't wait for the morning light
To come

It's like the silver sand
Flowing through my hand
Running out of time
This world of mine

Rainbows over the world of light
People rushing to the holy site
Sidewalks sizzle in a summer night
Of love

Come on baby hold me tight
Everything's gonna be alright
I can't wait for the morning light
To come

Come on let it rain
Come on let it rain
Hey

Rainbows over the world of light
People rushing to the holy site
Sidewalks sizzle in a summer night
Of love

Come on baby hold me tight
Everything's gonna be alright
I can't wait for the morning light
To come

Come on let it rain
Come on let it rain

Come on let it rain
Let it rain
Let it rain
Let it rain
Let it rain
You know you can succeed
Let it rain
