

End Over End

American Aquarium

I'll hand you a note pad
Baby I'll hand you a pen
Just explain it one more time
I'll kick and I'll scream
Hold my breath and count to ten
Just explain it one more time

'Cause when the world stop spinning
End over end
And the blood all dries
And the wounds they start to mend
When I need less of a lover
And more of a friend
Baby please don't
Promise you won't
Baby don't let me down again

What did you see in them
That you couldn't find in me
Just tell me and I can change
Make a list of all the things you want me to be
Just tell me and I can change

'Cause when the world stop spinning
End over end
And the blood all dries
And the wounds they start to mend
When I need less of a lover
And more of a friend
Baby please don't
Promise you won't
Baby don't let me down again

'Cause when the world stop spinning
End over end
And the blood all dries
And the wounds they start to mend
When I need less of a lover
And more of a friend
Baby please don't
Promise you won't
Baby don't let me down again
