

The Hardest Thing

American Aquarium

Another night couldn't sleep a wink
Mighta had too much to drink
I know exactly what you think, you don't have to tell me
"That stuff ain't no good for your health
Put the bottle back on the shelf
And coffee ain't gonna make itself"
I know babe, I know

I find myself in conversation with you throughout the day
I know it's just my imagination
But I know exactly what you'd say
I can't stop thinkin' about you
And our time under the sun
Havin' to learn to live without you
Is the hardest thing I've ever done

Turn on the house, make the bed
Make sure that the dogs get fed
Still feelin' last nigh in my head
When will I learn?
I watch the news every day at five
It's a miracle I'm still alive
The kids don't think that I should drive
I guess they forgot who taught 'em

I find myself in conversation with you throughout the day
I know it's just my imagination
But I know exactly what you'd say
I can't stop thinkin' about you
And our time under the sun
Havin' to learn to live without you
Is the hardest thing I've ever done

Before you go, one last thing
The flowers you planted in the spring
Even though my thumb ain't green, I think they're gonna make it
