

Wichita Falls

American Aquarium

I'm sending you a postcard
From Wichita Falls
That's where it all started baby
That's where it all started falling apart
Ohh you went and broke my heart
Now every single day
You running through my mind
It's like a freight train
Struggling to the end of the line

So if you see her around
Well just tell her I called
And that I'm sitting here alone
By Wichita Falls

I'm giving you a phone call
Just to see where you are
Are you out with your friends babe
Are you stuck in a bar with that other boy
Ohh you know the one I'm talking about
I won't bother you again
Cause you know where I am
Just remember nothing good ever happens after 3 am

So if you see her around
Well just tell her I called
And that I'm sitting here alone
By Wichita Falls

I'm sending you a postcard
From Wichita Falls
