

# Madness

## American Authors

They say we're on the edge of disaster  
They say we're on a sinking ship  
Waiting for the crew to row faster  
Don't you know they're full of it?

Oh I know there are better days ahead  
All I know what ya see's not what you get

All this madness madness madness  
Is bringing me down  
Is bringing me down down down  
All this madness madness madness  
Is bringing me down  
Is bringing me down down down  
But the only way is up from here now

I swear that I've seen greener pastures  
I swear I've seen the people rise  
Opening the book is so easy  
It's hard to read between the lies

Oh I know there are better days ahead  
All I know what ya see's not what you get

All this madness madness madness  
Is bringing me down  
Is bringing me down down down  
All this madness madness madness  
Is bringing me down  
Is bringing me down down down  
But the only way is up from here now

Oh, turn it off turn it off for a second  
I'm trying to make my life a little more pleasant  
Got my own plan got my own remedy  
Just trying to be me  
Oh, yeah

All this madness madness madness  
Is bringing me down  
Is bringing me down down down  
All this madness madness madness  
Is bringing me down  
Is bringing me down down down  
But the only way is up from here now
