

## Downstream

### American Head Charge

The pulse in the bass drum  
Lulls you close enough  
For a peek of what's to come of this  
Forming into around and right over a sound  
That has had you locked ever since it began  
And for feeling your trap  
Never know where you're at  
It's just the only thing  
That ever keeps me ready for it

It's like I'm marching from downstream  
But I'll never come up

Let them tick their mark in my eyes  
Wearing your crown on the dress  
You don't know what you have done  
It's in my ruin for life  
The sun keeps staring me down  
Every reflection it finds  
Lamenating on my skin  
Within the scent of the night  
Right there where people fail to excel  
I leave my kiss on the table

It's like I'm marching from downstream  
But I'll never come up

Please say you are what you offer  
Don't say I'm alone  
Please say you are what you offer  
Don't say you

You're getting the best of me  
Just what you deserve  
You're getting the best of me  
Just what you deserve  
I'm getting the best of you  
Just what I deserve  
I'm getting the best of you  
Just what I deserve

Please say you are what you offer  
Don't say I'm alone  
Please say you are what you offer  
Don't say you

It's like I'm marching from downstream  
But I'll never come up  
It's like I'm marching from downstream  
But I'll never come up  
It's like I'm marching from downstream  
But I'll never come up  
It's like I'm marching from downstream  
But I'll never come up  
It's like I'm marching from downstream
