

## Never Get Caught

### American Head Charge

follow me now and I will drown you  
fill you full of reason  
no windows Ill take you  
to the dirty place that I love  
slipping on messes  
you made when I hit you  
makes me more excitable  
Ill never get caught  
pull it tight Ill see right through it  
Ill never get caught  
cradle the difference in front of your fist  
force it down to bring it back up  
make them listen one more time  
wrapping you up in an american flag  
I fuck you for the glory  
no complaints from my friends  
they keep their fucking mouths shut  
I couldnt care less  
about the way that you see me  
soothing I will never be  
Ill always get shit  
for acknowledging pervisity  
Ill never get caught  
cradle the difference in front of your fist  
force it down to bring it back up  
make them listen one more time  
never get caught
