

# Happy

American Hi-Fi

I see you in a daydream  
Turn it on now make a big scene  
You kiss you kiss when you want something  
Fake a smile now  
You got it all

And that oughta get you nowhere  
What you say to me  
I know how to stay outta focus

Keep your head down till the bitter end  
Make believe that you my best friend  
You trade passion for fashion  
Nothings cool like when we were cool

And that oughta get you nowhere  
What you say to me  
I know how to stay outta focus

You fall through to cracks of the city street  
You can't see straight  
You can't see straight

I see you in a daydream  
Turn it on now make a big scene  
It makes you happy  
It makes you happy  
It makes you happy  
It makes you happy

And that oughta get you nowhere  
What you say to me  
I know how to stay outta focus

And that oughta get you nowhere  
What you say to me  
You fall through to cracks of the city street  
You can't see straight  
You can't see straight  
You can't see straight
