

Rise

American Hi-Fi

I don't know what I can take
Can you feel the pressure break
I've been getting by on nothing
How long so long
Feeling like I lost my vision
Transmission full of dead ambition
Kinda sorta gotta get it together
I can't wait forever

Rise out of the atmosphere
I gotta disappear
I gotta get out of here
You got the best of me
Rise up and outta here
Into the stratosphere
I gotta get out of here
You got the best of me

I could never be that clever
Even though it's now or never
Counting down the seconds till it blows
4 3 2 1
Disappear without a trace
Could I be in outer space
Staring at the sun till I get how high so high

Rise out of the atmosphere
I gotta disappear
I gotta get out of here
You got the best of me
Rise up and outta here
Into the stratosphere
I gotta get out of here
You got the best of me

Did I break down
Can we slow down
I wanna get out
I don't wanna be so bored

Rise out of the atmosphere
I gotta disappear
I gotta get out of here
You got the best of me
Rise up and outta here
Into the stratosphere
I gotta get out of here
You got the best of me

You got the best of me (8x)
