

## We Can't Be Friends

American Hi-Fi

We were good, playin' hard, rollin' down the boulevard  
Liquor drinks, between the bars  
Making out, back of cars  
Hey, you see that girl?  
She's the one that wrecked my world  
Think you're gonna take it far  
She don't wanna know who you are  
Sunset strip, back in black, i'm right on track  
Holdin' court like obie wan, baby's got it goin' on  
So what am I supposed to do  
She left me I got nothin' to lose  
Exit axis bold as love got a new girl i'm thinkin' of  
One thing you gotta know  
I thought I did everything just to keep you around  
I hope that you're happy now  
I'll keep my good intentions and you keep the car  
This story's coming to an end  
Baby we can't be friends

Disco trip, party ships, breakin' down those ruby lips  
Ex-girlfriend, comes in view  
Sees me there with someone new  
Hey, you see that girl?  
She's the one I wrecked her world  
Baby's in my cadillac, drivin' off no lookin' back

What makes you think I'd wanna call?  
I forgot your number  
What makes you think I care at all?
