

## Firefly

American Music Club

Come on beautiful we'll go sit on the front lawn  
We'll watch the fireflies as the sun goes down  
They don't live too long, just a flash and then they're gone  
We'll laugh at them and watch the sun go down

You're so pretty baby  
You're the prettiest thing I know  
You're so pretty baby  
Where did you go

Tell me why you don't sleep anymore  
Tell me what you sit up all night waiting for  
Are you waiting for loneliness to paralyze  
Are you waiting for Sister Midnight to unleash the tide

You're so pretty baby  
You're the prettiest thing I know  
You're so pretty baby  
Where did you go

Finish the prayer that started as a kiss  
The overwhelming dream of happiness  
I'll give you all of my good luck  
For the overwhelming dream that's killing us

You're so pretty baby  
You're the prettiest thing I know  
You're so pretty baby  
Where did you go

Come on we'll go sit on the front lawn

I'll hold you in my arms and we're gone  
Here and gone, firefly
