

Gloom Forever

American Nightmare

All the money in the world
Can't buy a new one
So we hang around the sun
In the corners of hell
The way flies fly
Just to find the window closed
All we feel is pane

Oh gloom I see no future
That's why I loved you with the lights on
Oh gloom I see no past
That's why I'm standing here in front of you

From the womb to the tomb
We've walked with disaster
Forging new ways to fade away
To fade away faster

Oh gloom I see no future
That's why I loved you with the lights on
Oh gloom I see no past
That's why I'm standing here in front of you
And on the days I want to disappear
I stay here for you

I know
I know
There is no turning back
But when you're standing in the fire
All you see is black

True love in the burning world
True heart in the crooked world
I saw your name engraved with paint
Across these city walls
True love in the burning world
True heart in the crooked world
I saw your name engraved with pain
Across your city walls

Oh gloom
Life's so easy for the insincere
But I'll stay here for you
