

Life Support

American Nightmare

Yeah they got me on life support
The taller I got the more they sold me short
They wanna cut the cords and kick me through heaven's door
See I'm coming back around
And I don't wanna be tied down any more
I get no satisfaction
Hanging on the edge of what's mine
It's my life

They wanna keep me on life support
Death deals a hand and I'm coming up short
I got nothing but love for love and nothing for you
These people stand you up
Just to kick the legs out that they stood you on
Send me no more flowers
Shallow grows your garden rose

Too young to die
Too old to live
I need you now
Like I needed you then

Too young to die
Too old to live
I need you now
Like I needed you then

Sing-along
Babylon
Armageddon

Kingdom come
I don't care
Take me anywhere
Just outta here
Just outta here

Yeah they got me on life support
In a cold war looking for a wave of warmth
I passed 400 blows ten years ago
Don't shake the death rattle baby
I'm telling you again

Too young to die
Too old to live
I need you now
Like I needed you then

Too young to die
Too old to live
I need you now
Like I needed you then

Too young to die
Too old to live
I need you now
Like I needed you then

Too young to die
Too old to live
I need you now
Like I needed you then

You gotta keep me on life support
You gotta keep me on life support
You gotta keep me on life support
You gotta keep me on life support
