

Huckleberry Flynn

American Steel

you're just a simple man
god loving christian
proud american law abiding citizen
you're crushing me under your cross
what a good samaritan
please save me from my sins
im just heathen godless pagan
you insult my sense of faith
i don't care what you say about my family
law huckleberry flynn
with god as law and law as god
i question your certainty
and divine authority
i pledge no allegiance
i've got too many grievances
f**k your moral majority
preaching all your values
they always turn back on you
you can't see me off the street
go out of your way to step on me
i don't see your love
