## **Forecast**

## **Amerie**

Every single morning
I look at my window pane
I want it to be sunny
But the forecast calls for rain

The rain keeps on falling (the rain keeps on falling)
Oh I want it to stop but
The rain keeps on falling on me

Nobody knows the future Who knows what tomorrow brings So I□mma keep my head high Even if it rains

The rain keeps on falling (the rain keeps on falling)
Oh I want it to stop but
The rain keeps on falling on me

Oh I know that the sun will come out
I know it will come out, it will come out
Oh I know that the sun will come out
I know it will come out, it will come out
