

Give It All Up

Amerie

They say love ain't for the faint-hearted
But ever since the day that we parted
I knew, yeah, that you'd
Be back around yeah

I never ever wanna be with you yeah
But I never ever wanna be without you yeah
I knew oh

Tryin' so hard to play the role
Act like you don't miss me all you want
With them other girls you off and on
But I'ma make you give it all... I'ma make you give it all up
I'ma make you give it all... I'ma make you give it all up ooh

Tryin' so hard to play the role
Act like you don't miss me all you want
With them other girls you off and on
But I'ma make you give it all... I'ma make you give it all up
You gon' wanna give it all... You gonna wanna give it all up
I'ma make you give it all up

They say love ain't for the faint-hearted, yeah
And it's too late once you get started
Too much to lose, we got
Too much to prove
To end it now eh

I never ever wanna be with you yeah
But I never ever wanna be without you yeah
I knew oh

Tryin' so hard to play the role
Act like you don't miss me all you want
With them other girls you off and on
But I'ma make you give it all... I'ma make you give it all up
I'ma make you give it all... I'ma make you give it all up ooh

Tryin' so hard to play the role
Act like you don't miss me all you want
With them other girls you off and on
But I'ma make you give it all... I'ma make you give it all up
You gon' wanna give it all... You gonna wanna give it all up
I'ma make you give it all up

You never knew that it could be like this
You never knew that it could feel like this
You try so hard to not believe in this
Because you know that nothing lasts forever

You never knew that it could be like this
You never knew that it could feel like this
You try so hard to not believe in this
Because you know that nothing lasts forever

Tryin' so hard to play the role
Act like you don't miss me all you want

With them other girls you off and on
But I'ma make you give it all... I'ma make you give it all up
I'ma make you give it all... I'ma make you give it all up ooh

Play the role all you want, off and on
But I'ma make you give it all... I'ma make you give it all up
You gon' wanna give it all... You gonna wanna give it all up
I'ma make you give it all up
