

# Break These Chains

Amii Stewart

In the darkness over night  
In searches of love's delight  
I'm talkin' with him for awhile  
That's all around me  
I can move it, I can spread  
I'm hopeless and so weak  
I'm searchin' somewhere, someone will find me

(Break, break these chains)  
(Break, break these chains)

I need a place where I belong  
Someone to call my own  
Livin' with him without past form behind me  
I give my body, mind and soul  
No wishin' trendin' under control  
To the wonder cut these ropes that now wind me

Break these chains around my heart  
Break these chains around my heart  
I want you, I need you  
I need you my love  
Break these chains around my heart  
Break these chains around my heart  
I want you, I need you  
I need you my love

(Break these chains) Break these chains  
(Break these chains)

Like a ship without a sail  
No direction that's all frail  
I'm searchin' for someone to guide me  
No more longin' lonely nights  
No solitary bights  
No more with you're forever beside me

Break these chains around my heart  
Break these chains around my heart  
I want you, I need you  
I need you my love  
Break these chains around my heart  
Break these chains around my heart  
I want you, I need you  
I need you my love

(Break these chains) Break these chains  
(Break these chains)...
