

# This Generation

Amii Stewart

Awful century is not his problem  
But he can try, other say it  
Mothers and fathers, they built this country  
We must've put them sub to share

But nowadays we're talking 'bout distraction  
We've got to stand up  
And make everybody say it  
Nowadays we're talkin' 'bout pollution  
We've got to stand up  
And set this world free

This generation won't change the works right  
This generation, we hold up to fight  
This generation is gonna do  
What the other generation didn't do  
(This generation)  
This generation will find solution  
This generation will be in confusion  
This generation is gonna do  
What the other generation didn't do  
We're singin'  
Nanana di da...

When you look 'round you see  
We've got problems  
But we can try, other say it  
What you get, it's all that  
We can rule this country  
We must've put them sub to share

But nowadays we're talking' 'bout distraction  
We've got to stand up  
And make everybody say it  
Nowadays we're talkin' 'bout pollution  
We've got to stand up  
And set this world free

This generation won't change the works right  
This generation, we hold up to fight  
This generation is gonna do  
What the other generation didn't do  
(This generation)  
This generation will find solution  
This generation will be in confusion  
This generation is gonna do  
What the other generation didn't do  
We're singin'  
Nanana di da...

Stand up, stand up  
Oh, stand up, stand up  
Oh, stand up
