

## You To Me

Amii Stewart

Our love is an endless river  
Keeps on flowing on and on forever  
Each dream like a forest flower  
Keeps on growing every hour

We can almost touch the horizon's edge  
So reaching further  
Then we can even light up the star ahead  
I know we were bound by destiny  
We will always be

You to me are everything  
You to me are everything  
My whole world's devoted to you  
For you there's not a thing I wouldn't do  
You to me are everything

Our love is a perfect circle  
Has no start or end, cannot be broken  
Stronger than a moment's weakness  
It knows no secrets, we both believe it

No one's ever gonna come between  
The love we're sharing  
And no one's gonna take away our dream  
'Cause there's more than words could ever say  
How can I explain?

You to me are everything  
You to me are everything  
My whole world's devoted to you  
For you there's not a thing I wouldn't do  
You to me are everything

You to me are everything  
You to me are everything  
Oh, baby, you to me are everything  
You to me are everything, baby

You to me are everything  
You to me are everything  
Oh, baby, you to me are everything  
You to me are everything  
Oh, baby, you to me are everything
