

## After Dark

Amina Buddafly

I can be that girl  
Who claims that she don't want it  
Let go then I want it back  
You the type of man  
You'll put it down, let me have  
A taste then disappear too bad

Cuz I got something for u tonight  
That will make you feel just so right  
You don't wanna miss out no I  
Promise just come by my place

Meet me after dark, look me in my face  
Start kissing on me, 'til I am ready  
Make out on the floor, throw me on the bed  
'Bout to be the best, that you ever had  
Meet me after dark dark dark dark dark dark dark  
Cuz I can make it hard hard hard hard hard hard hard

Now when you get to my door  
Best believe it's lace and lingerie  
Candlelight burning bring  
And your favorite dinner's served  
But u may not get to eating  
Least not 'til u eat some of mine

And I ain't gonna make u work it all  
I'm gonna go ahead take, control  
'Til both of our bodies shaken  
And then we'll go one more again

Meet me after dark, look me in my face  
Start kissing on me, 'til I am ready  
Make out on the floor, throw me on the bed  
'Bout to be the best, that you ever had  
Meet me after dark dark dark dark dark dark dark  
Cuz I can make it hard hard hard hard hard hard hard

Cuz I want u boy and truth is  
I been wanting to do this  
Since the last time u came around  
Don't nobody do like u do  
Can't no-one do like me boy I got u  
Here is when where and how

Meet me after dark, look me in my face  
Start kissing on me, 'til I am ready  
Make out on the floor, throw me on the bed  
'Bout to be the best, that you ever had  
Meet me after dark, look me in my face  
Start kissing on me, 'til I am ready  
Make out on the floor, throw me on the bed  
'Bout to be the best, that you ever had  
Meet me after dark dark dark dark dark dark dark  
Cuz I can make it hard hard hard hard hard hard hard
