Be About It

Amina Buddafly

I should just go with somebody else
I should find that someone better now
Why do I keep on doing this to myself
When I damn sure should know better now

U got me hooked and I know it
I'm gonna end up broken-hearted
I need to back out of this
Scratch u right back of my list
I'm too in love and I show it
I should've never got this started
I said I wouldn't but I'm here again
'Bout to lose myself again
I can't...

My wants my needs my
Speed is high, and I need u to keep up
So tell me that u gonna be about it
Won't you tell me that u gonna be about it
My heart protected
Takin' care of all that he neglected
So tell me that u gonna be about it
Won't u tell me that u gonna be about it

I could be wrong and you a better man
Just gotta know you're the exception
And I ain't gonna be prey again

Cuz this time could be different
Don't wanna spend my whole life missin'
Out on love because he damaged me
Boy we could be a family but I
Be too in love and I show it
I should just get this started
I said I would've but I'm here right now
We can make this work somehow
If u can

My wants my needs my
Speed is high, and I need u to keep up
So tell me that u gonna be about it
Won't you tell me that u gonna be about it
My heart protected
Takin' care of all that he neglected
So tell me that u gonna be about it
Won't u tell me that u gonna be about it

Boy I need u to
Be about all of the things u say
I don't want talk boy I need action to make
Me see u ready u ready
Boy I need proof
That u can handle me and all my ways
And that u know how to love a girl like me
Cuz I don't play no games no more

My wants my needs my

Speed is high, and I need u to keep up
So tell me that u gonna be about it
Won't you tell me that u gonna be about it
My heart protected
Takin' care of all that he neglected
So tell me that u gonna be about it
Won't u tell me that u gonna be about it

My wants my needs my
Speed is high, and I need u to keep up
So tell me that u gonna be about it
Won't you tell me that u gonna be about it
My heart protected
Takin' care of all that he neglected
So tell me that u gonna be about it
Won't u tell me that u gonna be about it
