

Been There Done That

Amina Buddafly

Boy, I've been looking at you thinking I'm in love
When I don't need to be thinkin' 'bout you at all
Just got done dealing with someone like you
Yeah, that bad kind of cool, but oh
I've been peeping your sexy on the low
But I really don't wanna let my friends know
Cause they only gonna be hating for sure
They know what I know

I ain't built for the same thing I've been through
It's torture, cause I don't give up 'til it's over
Don't need to get stuck tryin' to hold ya

Like something from my past
Or someone I can't get
To love me for who I am
Oh I remember when
Boy I've been there and done that

Oh, so you are different, I hear you go on...
Tellin' me how you just met the one (and that is me boy)
Boy I could be mistaken and be wrong
If that is the case "Boy bye"
Definitely doesn't not apply
But you just seem to be the kind of guy
To make me not even wanna try, well I want to but I...

I ain't built for the same thing I've been through
It's torture, cause I don't give up 'til it's over
Don't need to get stuck tryin' to hold ya

Like something from my past
Or someone I can't get
To love me for who I am
Oh I remember when
Boy I've been there and done that

Been there done that I've been there done that
Been there done that I've been there done that
I don't need to step back in the past
Boy I thought I learned my lesson at last
I don't need to step back in the past
Boy I thought I learned my lesson at last

I ain't built for the same thing I've been through
It's torture, cause I don't give up 'til it's over
Don't need to get stuck tryin' to hold ya

Like something from my past
Or someone I can't get
To love me for who I am
Oh I remember when
Boy I've been there and done that
