Can U

Amina Buddafly

Yeah Yeah
Oooohh

You let me go, then pull me closer
Won't you let me know what it is that you want from me baby
Back and forth I'm not feeling it, no
I need more than somebody to be there

Can u get me a-bove water
When the ships go down and I need ya
Can u take me up to the sky
Take me high
Till we fly
Can u take me there forever
And when I say it's now or never
Can you make up your mind faster
Can we be together

(Can You) Change my life
(Can You) And make it right
(Can You) Baby tell me why
(Could You) Why could you
(Can You) Let it be known
(Can You) Ya never gonna let go
Tell me that ur mine (Can you)

Get outta here
With broken promises oooo
Let it be clear
(And if you want me I want you and I'll be true)
We can take it slow
But when they come to wonder (Amina & Jazz)
You gonna let 'em know
I don't wanna have to question you, no

Can u take me a-bove water
When the ships go down and I need ya (I need ya)
Can u take me up to the sky (The sky)
Take me high
Till we fly
Can u take me there forever
And when I say it's now or never
Can you make up your mind faster
Can we be together

(Can You) Can you change my life
(Can You) And make it right
(Can You) Baby tell me why
(Could You) Why could you
Let it be known
(Can You) Ya never gonna let go
Tell me that ur mine (Can you)

Ooooooooo

Ahhhhhhh

(Can You) Change my life
(Can You) And make it right
(Tell me that ur mine)
Can you ooooo
