

Never look back to what's in the past
Still I can't lie it got me depressed
Happy I am but I need some bad
Here in my bed thinking bout sex

Better yet someone to hold me close
A nigga who good to me unlike most
Making me laugh, giving me that vibe that I like

I wanna be
Like the people on the gram, they always make it look easy
Can't be so hard just to please me, I don't ask for much
Just someone to hold me down and never leave me
Can't be so hard just to keep me
And make me cum

That's right baby he better got that 'good'
Grey sweats, I can see it and I wish he would
Run up on me while in the kitchen I cook, I stop, take it off,
let's make love, I
Could go on and on and on daydreaming boy
If you're out there won't you just come in
Can we make them mad with a million likes, add hashtag 'in real
life'

Let's be
Like the people on the gram, they always make it look easy
Can't be so hard just to please me, I don't ask for much
Just someone to hold me down and never leave me
Can't be so hard just to keep me
And make me cum

Uhhh, ohhhhh yea
Uhhh, ohhhhh
Uhhh, ohhhhh yea
Uhhh, ohhhhh

Let's be
Like the people on the gram, they always make it look easy
Can't be so hard just to please me, I don't ask for much
Just someone to hold me down and never leave me
Can't be so hard just to keep me
And make me cum

(Can't be so hard just to keep me...)
