

U Slippin

Amina Buddafly

I'm out or I'm all in, babe I get to fallin way to fast
Then I cause a problem you get mad
I've fallen, fallen way too deep I need to relax
Boy will you pass the test?

Maybe you're right I am the problem shouldn't trip
Cuz we evolving just began and it's been going good...
But when I think about this battle
Promised me I wouldn't settle, let me say it in the best way th
at I could

I thought you were the one
Making me feel like I was wrong
Every time I said men are all the same
I should've known
Cause here you go turning your phone upside down,... you slippi
n slippin

Boy you got that habit, and I need to check you right away
Cuz if I let it slide you think it's okay
Have it, your way but don't trip if do the same
Baby 2 can play that game

And don't you dare to call me crazy, I'm a woman
Watch it baby, we all got the spidy sense on lock
Think I don't notice cuz I'm silent
If you knew what's on my mind
Then you'd be careful wit that backside facing up

I thought you were the one
Making me feel like I was wrong
Every time I said men are all the same
I should've known
Cause here you go turning your phone upside down,... you slippi
n slippin

I need my man ready, and willing to make all the sacrifices nec
essary
Tell me can you keep it up, phone face up that's all I need, I
need
I need my man ready, and willing to make all the sacrifices nec
essary
Tell me can you keep it up, phone face up that's all I need, I
need

I thought you were the one
Making me feel like I was wrong
Every time I said men are all the same

I should've known

Cause here you go turning your phone upside down,... you slippin
n slippin
