

Use Me

Amina Buddafly

The way you hit it from the back...
When you used to say meet me in the bathroom...
Yeah we was lit you was on that ass
Like Neyo said: "I had the body, you had the bag..."

Am I wrong for saying I miss those days?
I wanna be devoured like a cupcake
My nasty mind is all over the places that we used to like

Where the love gone?
Where the love gone?
Bring it back I miss the way you used to bout it on
Me after dark, in the back of my car
I'd like the freak in you to wake the freak in me back up
I like it when you go slow and down low
That nasty baby, make it cum like a pro
Say my name when you do, just like you used to
The way you used to do, I wanna get used by you

Uhhhhhh use me
Uuhhhhhh uuhhhhhh use me

Go ahead babe, I give you permission
Take me down, your favorite position...
Wanna bring someone in the room, try something new
I might just do it, long as you let me choose...
It ain't like I fell if I am still that bitch
But somehow we lost it, you better appreciate this
My nasty mind is all over the places that we used to like

Where the love gone?
Where the love gone?
Bring it back I miss the way you used to bout it on
Me after dark, in the back of my car
I'd like the freak in you to wake the freak in me back up
I like it when you go slow and down low
That nasty baby, make it cum like a pro
Say my name when you do, just like you used to
The way you used to do, I wanna get used by you

Uhhhhhhh use me
Uuhhhhhh uuhhhhhh use me

Uhhhhhhh use me
Uuhhhhhh uuhhhhhh use me

Where the love gone?
Where the love gone?
Bring it back I miss the way you used to bout it on
Me after dark, in the back of my car
I'd like the freak in you to wake the freak in me back up
