

Adam

Aminé

Back in forth, you're steady wildin'
Adam history, but silence
The passive aggressiveness to this shit that we been through
Made me feel pressure like I ain't good enough for you
Ah, come talk to me
Put your pride aside, come walk with me
I cater to you, please, tell me what you need
Baby, hear the smile down my phone and stay a while
I don't care about the miles, mm-hmm

Shameful, the table, it's paid for
You think I don't give a fuck
Adam thinks he's enabled
I'm faithful
Walk in my boots for a change
Don't waste a whole year on a day, mm-hmm
Put it all behind, then put on a lace
A couple years could be time we could've saved (But it stayed, I stayed)

Back in forth, you're steady wildin'
Adam history, but silence
The passive aggressiveness to this shit that we been through
Made me feel pressure like I ain't good enough for you
Ah, come talk to me
Put your pride aside, come walk with me
I cater to you, please, tell me what you need
Baby, hear the smile down my phone and stay a while
I don't care about the miles, mm-hmm

I'm rockin' brand new things for you
Everything I do, I do for you
I cooked the breakfast in bed for you
Whatever it'll take to get back to you
Silly [?] from my eyes
Single friends for advice
I still regret every little fight
Please don't burn and then die
And I stay

Back in forth, you're steady wildin'
Adam history, but silence
The passive aggressiveness to this shit that we been through
Made me feel pressure like I ain't good enough for you
Ah, come talk to me (Talk to me)
Put your pride aside, come walk with me (Walk with me)
I cater to you, please, tell me what you need (What you need)
Baby, hear the smile down my phone and stay a while
I don't care about the miles, mm-hmm

I wouldn't leave, you are my legend
Just what you see
I have for [?]
