

## Baba

Aminé

I was, down  
But I'm really lit right now  
A couple drinks in your head  
Your calling me daddy instead  
Mommy how that dress fit tight  
Is it heaven between your thighs  
She wanna know what's my name  
Lil mama look you can call me

Baba  
Baby you can call me Baba  
Baby you can call me Baba  
Not your daddy, or your father, or your papa  
Baba  
Baby you can call me Baba  
Baby you can call me Baba  
African so I can hit it proper

My stroke game good, check this  
He buy you nice things girl that's reckless  
I'd rather give ya my password to Netflix  
Look  
I know I'm a black boy, brown skin  
White girl think I taste like chocolate  
Hm, maybe you should come try a lick, shit  
Badder then average  
Shawty's a savage  
Face from the heavens with a ass on Dallas  
And her first name lavish  
Material girl like Gucci and Prada  
I used to rock Fubu and Dada  
Two different types of people  
But I know we equal  
If you give me one chance I don't need a sequel  
Singin'  
Your body's like a temple to me  
If feels like tetherball's in the sky  
Soaring free from the worlds fallacies  
One hit is all you need to fly
