

Between The Lines

Aminé

I wish you could read between the lines
I hoped to seek what I couldn't find
I've truly enjoyed all the time
We've spent on evening nights

Baby girl I'm in the street with my niggas goin' crazy
When I say street I mean outside daily
I never took a L so I'm L-less like Tracee
Her blouse see through with the navy blue pasties

Obsessed with your face but confused by your heart
These the type of feelings I'ma stop before they start
Thought I was just trying to fuck, not trying to play my cards
I can read between the lines, I'm just puttin' up a wall
And I'm stubborn like my daddy
Said she wanna talk so I told her send the addy
Questions like (What is this?) What are we? (Are you happy?)
A hundred missed calls 'cause I'm workin' in Miami
Would ya stop with the chatter and take off the pleets please
I ain't tryna make you hot, I'm tryna take you in the heat
Caribbean summers or somewhere that's overseas
Sippin' French 75's gettin' drunk by the beach

I wish you could read between the lines
I hoped to seek what I couldn't find
I've truly enjoyed all the time
We've spent on evening nights

Ok, I'm pickin up what you puttin' down
Lil' mama fed up but she know I put it down
Roll us up a J and, baby girl, take off the JJJJound
Want you on the kitchen counter but a nigga eatin' out

I been workin' in the mornin' and the evening
Shawty givin' me silent treatment
I been puttin' you through hell like a demon
But you like to keep screamin'

I'm sorry but I know you hate lies
If you wanna talk, girl, I'm parked outside
Shut the fuck up, hop up in this ride
Whenever you need me you know I will slide

Cross my heart and hope to die
Girl, I'm not stupid, I can read between the lines
I know I'm acting young, I'm just trying to not decide
Commitment seemin' endless, I'm just really terrified

I wish you could read between the lines
I hoped to seek what I couldn't find
I've truly enjoyed all the time
We've spent on evening nights

Look, bitch
I can pick up what you're putting down
I know you wanted me and you, but I don't want that
Let me the fuck go

Please
I'm here for a good time not a long time
Thank you
