

Cool About It

Aminé

Different (Different)
Feelings that I feel for your existence
Next to you, next to you
It's written (Written)
If I felt like this before, then there's a difference (Different)
I want sex with you, know to keep it cool
I gotta keep it cool
Keep it cool
Keep it cool

You are the one, the one that lies close to me
Whisper, "Hello," I've missed you quite terribly
I felt alone, in love with you suddenly
There's no pleasures, I could be but here in your arms

Yeah, young Aminé beatin' on her box, dum-dum-dum-dum
She winnin' every damn fight, man, it's fifty to none
Now shut her up when I treat it like a cinnamon bun
She in the drop-top, trippin' again
Can a nigga console in me? You needin' your friends
Won't fuck it up, can't quick
That's not my girl, that's my bitch

Different

Keep it cool

Can't be cool about it
Turns out, I was insane back when you found me
You said it wouldn't change, it's true, it's honest
I let you get away when you was down and, uh-uh
