

Let's just  
Let's ju-  
Let's just do this and quit acting like  
We ain't got life  
Let's just do this  
It's the remix baby (let's just do this)

She likes my diamonds and my pearls  
I said "thanks my girl designed it"  
Amine might just steal your girl  
If you call me Trey Songz I don't mind it  
Trying, west side nigga I am  
Liking, the way that you move  
The way that you move  
It's the way that you move

I'm on south beach  
Tryna leave  
High as hell need vacancy  
Got a flight that I gotta catch  
So sober up for security  
You know TSA don't play  
These rappers get the pj  
But they don't make pj weight  
It's sad cause it's so fake  
My nigga why you  
Fucking your commas up?  
Spending a grand on lunch  
You gonna be broke with that kinda stuff  
You ain't even bought your mama shit  
But you gotta spend cause you wanna look rich  
This LA living got you changing  
You out here shining on these niggas like you stainless  
You out here ballin on these niggas, Calvin Cambridge  
Aye tell me, is this life you live worth it?  
Does the ice you rock make you painless?

She likes my diamonds and my pearls  
I said "thanks my girl designed it"
