

I Think It's You

Aminé

Don't know what's wrong with me
I been lettin' all my problems get to me
I choose to think about the things I've lost
When deep down, I know it's the things I've caused
And my conscious say

I think it's you
And I know it is, I think it's you
And I know it is, I, I think it's you (I think it's you, you, you)
I know it's you

Calm down, young man
And don't be nervous
Your best judgement's always under the surface
Take all the time you need
It's always worth it
Your guy should play the lead
That's his only purpose
In my head like I know it's me
Talkin' to myself, now I feel crazy
No solutions, but I keep it low-key
Fuck around and when my feelings on me
Don't know if everything is gonna be alright
I smoke my spliff and pray my decisions all wise

Don't know what's wrong with me
I been lettin' all my problems get to me
I choose to think about the things I've lost
When deep down, I know it's the things I've caused
And my conscious say

I think it's you
And I know it is, I think it's you
And I know it is, I think it's you
I know it's you

So ashamed of myself (Self)
Disappointment in my lungs, regret on my smell
Doubtin' what the fuck I brung to the table
Feel like nothin', I'm self-hateful
Can't move my legs, not stable
No halo on me, I'm no angel
Mama take me back to my cradle
I'm willing and I'm unable
This a dose shit is too fatal
And being satisfied is like a fable

And I'm tired of it
And you're tired of it too
And I wanna trust it
But I'm feeling like a fool

Ash piles like a mountain
Smokin' on things I regret
Past things I've been doubtin'
Holdin' onto things I feel
My, oh, my, what's it gonna take?

My, oh, my, what you tryna chase?
My, oh, my, still learning how to pace
My, oh, my

Don't know what's wrong with me
I been lettin' all my problems get to me
I choose to think about the things I've lost
When deep down, I know it's the things I've caused
And my conscious say

I smoke my-
I smoke my spliff and pray (Mmm)
I smoke-
I smoke my spliff and pray (Mmm)
I smoke-
I smoke my spliff and pray (Mmm)
I smoke-
I smoke my spliff and pray my-

I think it's you (Mmm)
I think it's you (Mmm)
I think it's you (Mmm)
I know it's you (You-you)
