The sun sets every day  
Why would you need a picture of it?  
I like you, won't see you for a while  
Those images mean more than a pic

The days of our life (Days of our life)  
A moment in time (A moment in time)  
Memories aside (Aside)  
And for a frame, a terabyte

I'm keepin' people alive with the photos in my house  
Gigs aside, I'm talkin' no iCloud (True)  
Fadin' love, need to remember somehow  
When it's in my hands, please come back out  
No mad feelings (Yeah), we go way back (Yeah)  
Nostalgia in 'em (Yeah) 'til they fade black (Yeah)  
Man, I can't front 'bout it  
Passin' it back, but I can't pass on it  
You're gone, but it feel good to know I got it  
'Cause inside the frame, I know things won't change  
You know I don't check my storage  
You know we ignore reminders  
Casually forgettin' these moments  
You know you always waitin' for the chorus

The sun sets every day (The sun sets every day)  
Why would you need a picture of it? (Why would you need a photo of this shit  
?)  
I like you, won't see you for a while (No, I won't see you for a while)  
Those images mean more than a pic (Those photos to me mean more than a pic)

The days of our life (Days of our life)  
A moment in time (A moment in time)  
Memories aside (Aside)  
And for a frame, a terabyte

Slippin' on my OCD  
Psychedelic in the water, had me ocean deep, I'm  
Runnin' close in the space I need  
Mando' update, you know that ain't cheap  
The Polaroid out of pape', make sure they HD, but I  
Say, "Cheese," hit her in her knees  
I was lately kind of wonderin' I'm in your league  
Keep the vibe on the low like the track ID, uh (Hey)  
I reflect on moments that's more casual  
The flip-phone minutes on low and no data  
Hit those and my mind just go backwards  
A pic get a thousand words with no caption  
The image when push come to shove be the capsule  
Can't get away, the commercial throw ads in  
Split-second fade, they go ghost into Casper  
Days of our lives, we can't let the time pass us

A moment in time (It's a moment in time)  
It's just a moment in time (It's just a moment in time)  
It's just a moment in time (It's a moment in time)  
That was just a moment in time (A moment in time)

A moment in time  
A moment in time

Thank you, thank you  
Love, you baba  
I love you more than anything and anything else
