

You looked me in my eyes
Told me this was over
Now you're tryna catch a vibe
Being single's vulnerable
I'm scared up out my mind
Hurt but the show must go on
Now please don't change your mind
I got shit to lose, I got shit to lose
I got shit to lose, I got shit to lose
I got shit to lose, I got shit to lose
I got shit to lose, I got shit to lose
I got shit to lose, I can't do the bullshit

Look, baby, I got shit to lose
Importantly my peace and my p's and q's
I'm gettin to this bread I can't get with you
I'm tryna grab this bag cannot grab no food, look
Girl we got a lasting connection
You ain't gotta be passive aggressive
A lotta grey texts, you don't get the message
"Fuck nigga, go ahead and run to the next bitch"
I know you wanna know what I'm up to
And you're mad cause a nigga really up too
Jacquemus on my jeans and my shirt too
I know you wanna take it off, but I'm cool
Scratch on my back 'cause you miss me like that
Cannot do that 'cause the city on that
I'm over you, on mamas
I don't want no drama

You looked me in my eyes
Told me this was over
Now you're tryna catch a vibe
Being single's vulnerable
I'm scared up out my mind
Hurt but the show must go on
Now please don't change your mind
I got shit to lose, I got shit to lose
I got shit to lose, I got shit to lose
I got shit to lose, I got shit to lose
I got shit to lose, I got shit to lose
