

## Summer Feelz

Aminé

Is this what summer feelz?  
Like when I'm on the go  
Citrus in the air  
Her sundress in the floor

And in the winter  
And in the summer too  
Yo just love me  
In the worst way

In the winter your hating me  
In the summer you love to be  
My mistress or my baby  
But that's ok with me

And in the winter  
And in the summer too  
Yo just love me  
In the worst way

Summer feelz is the worst time every  
Some niggas never make it back  
In fall for the weather  
The girl that you love is probably gone for forever  
(Forever, ever, forever, ever?)  
Maybe  
The summer breeze resembles the Devil's breath  
If you feel like tea spirit, then scenes put you in check  
So niggas in my neighborhood hustle 'cause the paper good  
And hoes let their flowers bloom when the weathers good  
Cops swing 'round when the sun beats down  
Relationships fade like the side of my head  
You say that you'll miss me next winter  
I wonder what is real  
But that's 'cause summer feelz
