TOGETHER

Aminé

You've waited love forever
The heart is worth the weather
You should go out and get her
And learn to love together

I fucked things up
I see it in this cup (yeah)
I didn't mean to suck, I'm stuck
Sometimes I'm just too honest, admittin' that it's common
I should've used my common sense
So now I've gots to vent (yeah)
I can't stand ya, but I want ya
We s'posed to be together forever

Leaking from the pain, need a band-aid (hey!)
You're the main thing I need to maintain (whoo!)
Almost had my baby, need a damn drink (damn drink)
Swimmin' through your feelings, how I stay sane (stay sane)
You're the one I need, I hope this really works (really works)
'Cuz everything I need is always in your purse (purse)
Back again, yeah I'm back again (back)
I truly miss when you and me were only friends (yee)
When it was just innocent (yeah)
And we didn't have a past (true)
Sometimes I wish we could skip
To the part where we all just laugh (yeah)

And learn to love together
