

BLINDED INTERLUDE

Amir Obè

Say it's a sign
Some things never change, yeah

Beautiful brown eyes
Hide behind the contacts
Fake blue with the red eye
I'm high off the contact
Quiet but observant
Confused but I'm learning
Make-up on your surface
Tryna make up if it's worth it

Ultraviolet light (Light light light)
I'll go extra bright (Bright bright bright)
Look me in the eyes
Don't you never lose sight

'Cause you blinded over me
And I wonder, what you'll see

You're right
I'm wrong
Tell me what you see when you look at me
I get wet
Too emotional
That I lose control
So I got to look for ya
For ya, for ya, for ya
It's so cold inside, I can't feel my face
Borderline bipolar but some things never change
Still I feel a way for ya
Feelings dancing for ya

Ultraviolet light (Light light light)
I'll go extra bright (Bright bright bright)
Look me in the eyes
Don't you never lose sight

'Cause you blinded over me
And I wonder, what you'll see

Say it's a sign
Some things never change, yeah

Say it's a sign
Some things never change, yeah
