

BREAKSOMESHIT

Amir Obè

Giving me ideas to entertain
If it never happens it won't be the same
Maybe I'm just stubborn and I'll never change

Looking for something to make you proud of
And you watched me build it from the ground up
Pull up with the bag you living out of

And all these arguments been getting louder
All these arguments been getting louder
Let you break some shit to feel empowered
Let you break some shit to feel empowered

Hey
Ain't fucking with you no more I got options
Ain't fucking with you no more I got options
I ain't that other dude, and I got shit to do
I gotta make a move, you think this song bout you
It's just an interlude, and f*ck them interviews

Yea fuck them interviews, I don't got shit to say
Your heart got' break to day, it's in the lemonade
Who toxic me or you?
Who toxic me or you?
Who toxic me or you?
Who toxic me or you?

Ain't fucking with you no more I got options
Ain't fucking with you no more I got options
