

# DIRTY LAUNDRY

Amir Obè

Do your ash like dirty laundry  
Had to throw that shit away  
No surprise if you can't call me  
Cuz I'm moving state to state  
I can't get you back that's karma  
Say you want me I don't wanna  
Think about you no more  
Can't tell me what to do no more, no, no

## Spotlight

I was downtown on the wrong night  
All I wanna do is make my wrongs right  
Baby is you down for the long ride, right, yeah  
Always acting up, crashed the Bentley truck  
Had a couple drinks, think I had enough  
While you on the way, I'll be on the water  
I've been wildin' hope you see

Got a bark don't bite  
And I ain't tryna fight tonight  
You ain't down to ride

Do your ash like dirty laundry  
Had to throw that shit away  
No surprise if you can't call me  
Cuz I'm moving state to state  
I can't get you back that's karma  
Say you want me I don't wanna  
Think about you no more  
Can't tell me what to do no more, no, no

You, remind me of, the type of girl, I used to love, woah  
I should've known, you'd do me wrong, do me wrong, oh

Blow up my phone, leave me alone  
What do you want now?  
You should've known, would've been known  
From all the blocked calls

Blow up my phone, leave me alone  
What do you want now? (Leave me alone)  
You should've known, would've been known  
From all the blocked calls (Blocked calls)

Got a bark don't bite  
And I ain't tryna fight tonight  
You ain't down to ride

Do your ash like dirty laundry  
Had to throw that shit away  
No surprise if you can't call me  
Cuz I'm moving state to state  
I can't get you back that's karma  
Say you want me I don't wanna
