

## Kill Your Pride

Amir Obè

Smoking something right for the wrongs now  
Make these bitches sing along now  
Don't let them lyrics leave you wanting now  
I'm still fucking all them broads now  
I lost patience in a waitress  
She been living too complacent  
All them rumors make me anxious  
Where'd you get your information? You...

Cause every time I'm around you  
You be acting different you ain't acting like yourself  
Here's a bullet for your pride babe  
Here's a bullet for you, pull the trigger  
Cause every time I'm around you  
You just got some bad news for me babe  
Here's a bullet for your pride babe  
Here's a bullet for you, pull the trigger

To you I'm just a struggle rapper  
Go for low blows, then you suck me after  
I hear the chatter and the sudden laughter  
Now who's fast-forward? I don't hustle backwards  
I got you humming to my songs, yeah  
Girl you used to cut me off, yeah  
Now I got it like I said I would  
And you ain't saying nothing, like I said you would  
'Bout to set the wood on fire  
Bitch I wish you would, call mine yeah  
Off brand niggas tryna cuff you  
Pillow talking to yourself, I don't judge you  
Used to never say you proud of me  
It's awkward that you doubted me  
I just copped the whip and a house for me  
Fuck approval, I'mma vouch for me

Cause every time I'm around you  
You be acting different you ain't acting like yourself  
Here's a bullet for your pride babe  
Here's a bullet for you, pull the trigger  
Cause every time I'm around you  
You just got some bad news for me babe  
Here's a bullet for your pride babe  
Here's a bullet for you, pull the trigger
