

No Peace

Amir Obè

Where your love now?
Pour my heart out to the floors now
Treatin' love like a drug, I been drugged out
Treat your feelings like a target, bring them guns out
Kept on shooting just to prove that you ain't numb now

Put a ring on a middle finger, fuck you
Hope it stings just a little when it cuts through
Kept it distant from them women that be tellin' now
All them stories you ain't told, you can tell 'em now
I don't get enough credit
'Less we scamming understand we get enough credit
I make it work either way 'till the peace stop
I'm seeing all my enemies throw the peace sign, no peace

Let them bodies hit the floor now
Let them bodies hit the floor now, now, now, now, now
Let them bodies hit the floor now

Where your love now?
Pour my heart out to the floors now
Treatin' love like a drug, I been drugged out
Treat your feelings like a target, bring them guns out
Kept on shooting just to prove that you ain't numb now
Where your love now?
Pour my heart out to the floors now
Treatin' love like a drug, I been drugged out
Treat your feelings like a target, bring them guns out
Kept on shooting just to prove that you ain't numb...

Where your love now?
In the bottom of this bottle, I go drunk now
If I'm sober, then it's over, say it's done now
Won't play it smarter, I'm a martyr I go dumb now
I'm still open I'm just hoping you ain't shut down
I can see your soul when I'm looking in your eye
Tryna feel alive but you're killin' all the vibe, yeah
Found a treasure, girl you mix the truth with the lies, yeah
I done told you, but you never even threw a sign, yeah

Let the bodies hit the floor now
Let the bodies hit the floor now, now, now, now, now
Let the bodies hit the floor now, now, now, now, now
