

SOMEBODY ELSE

Amir Obè

Broke my promise said you had enough 'cause of me
Watch it fall apart, ain't no us 'cause of me
Bad habits got you doing drugs 'cause of me
Probably never get to know love 'cause of me

When it's late out
I know how it's gonna play out
Pitch black I'ma fade out
Tequila for the healing now
I don't got no feelings now
Aye

'Cause it's 5am floating and I don't want to come back down
You should find somebody else, you should find somebody else
And it's 6am feeling like I'm not even myself right now
You should find somebody else, you should find somebody else

Sayin' IHY but she waiting for replies
Always kept it Honest in the lyrics that I write
So look me in the eyes, look me in the eyes
'Cause even tho I tried, I'ma hit you with a lie

When it's late out
I know how it's gonna play out
Find somebody else for the take down
Tequila for the healing now
I don't got no feelings now
Aye

'Cause it's 5am floating and I don't want to come back down
You should find somebody else, you should find somebody else
And it's 6am feeling like I'm not even myself right now
You should find somebody else, you should find somebody else
